

POOL FILTRATION 01/17

GALAXY SINGLE-ELEMENT CARTRIDGE FILTER

Galaxy Single-Element Cartridge Filter is built with high-strength and UV-resistant material to prolong the product life. The compact and low height design is suitable for any pool especially with limited system setup space. The extensive dirt-catching capability of the filter element makes this filter highly efficient. A reliable choice for crystal clear water. Big one-piece cartridge element provides a large filtration surface for trapping more dirt and debris. Less cleaning required, and unlike sand filters, needs no backwashing thus saving water and its precious chemicals.

✓ Technical features

- Locking ring with quick-release latch allows removing and installing the top tank quickly
- Large water drain makes fast and easy winterisation
- Simple cleaning and rinsing the filter element with a garden hose
- 4 x mounting holes
- Easy-grip lid handle
- Indicative pressure gauge tells you when service is due
- Knee-height tank base facilitates easy cartridge replacement
- Galaxy series filter is equipped with:
 - Universal standard of union connection
 - Pressure gauge
 - Cartridge filter element
