# BROMINE

## SLOW DISSOLVING BROMINE

### ✓ Description

- Excellent disinfection regardless of the water pH
- Ideal for spas, whirlpools and other hot water systems
- Slow dissolving 20g tablets
- Destroys bacteria, viruses, fungi and algae

### Instructions:

**With Brominator** – Essential for slow and constant scattering. Fill the feeder completely with Brome Lent tablets and top up as and when dissolved. Adjust the bromine flow rate to 1 to 2 ppm for pools; and 2 to 3 ppm for whirlpools.

**Shock reactivating treatment** – It is recommended to treat the water twice a month or if the water is green or cloudy. Brome choc reacts to the bromine salts for enhanced disinfection at 0.45lb (200g) per 2,600 gallons (10m<sup>3</sup>) of water. Add tablets directly to the pool without any skimmer.

**Without Brominator** – Place the bromine tablets into a feeder or floating dispenser. Make sure not other product is in contact.

**Dosage rate:** 12 tablets per 6,600 gallons (25m<sup>3</sup>) of water, every 4 to 7 days. Adjust the bromine rate to 1 or 2 ppm for pools; and 2 to 3 ppm for whirlpools. Avoid a pH below 7.2
