

POOL LINING 11/02

RENOLIT POOL LINING

A pool liner you can purchase in smaller quantities (standard / non-slip).
Available in half rolls.

✓ Technical features

- Context of use:
 - For public and private pools with PVC membrane lining
 - Skimmer and overflow edge technology with PVC membrane lining
- **Features:**
 - Made in fully recyclable reinforced PVC
 - Resistant to UV, cold temperatures and adverse weather conditions
 - Good weldability and free from heavy metals
 - Excellent physiological testing in compliance with EN 71/3
 - Antimicrobial, resistant to all chemical products used for water treatment (according to chemical product instructions)
 - Uses chemical and mechanical properties in compliance with international regulation
 - Does not release dioxins into the atmosphere and can be recycled through degasification
- **Strong and waterproof with a thickness of 1.5mm, guaranteeing an excellent pool seal**
- Smooth and pleasant to the touch, durable and requires very little maintenance
- Resistant to pool detergents and water purification products, dependant on their individual instructions and a water temperature up to 28°C. Always read the label.
- **Standards:**
 - Manufactured in compliance with EN 13967, CE 071349-cpd-036
 - Thanks to it's textured surface, non-slip STG 200 pools, ensure safe walking on steps, ladders, children's areas and other areas of the pool where users frequently walk
 - Our STG 200 pools offer excellent safety standards on non-slip surfaces, confirmed by the class c certification under DIN51097 and DIN EN 13451 standards

RENOLIT ALKORPLAN 1000

A textured and coloured pool lining membrane made of two smoothed and compressed layers of polyvinyl chloride (PVC-P) reinforced with a polyester mesh.
