

## SAUNA & STEAM ROOMS 16/01

# SAUNA ROOMS

A sauna is total relaxation and cleansing for body and soul.

## SAUNA ROOMS

### ✓ Technical features

Sauna rooms come in different shapes and sizes, from 2 persons up to 11 persons capacity, with over 30 different designs to choose from. The most common saunas are the indoor sauna rooms which provide privacy and total relaxation for all users. As a rule, saunas require a shower or bath before use, so they should be conveniently located near a bathroom or jacuzzi.

There are four different standard designs available:

**BOX TYPE SAUNA ROOMS:** A traditional, easy to install, box type enclosure with a cosy interior and suitable for any location.

**CORNER SAUNA ROOMS:** An ingenious design, capable of fitting into any corner of any space without sacrificing convenience.

**OUTDOOR SAUNA ROOMS:** An outdoor location, close to a swimming pool or bathing facility, surrounded by exquisite scenery, provides a satisfying sauna experience for everyone. Choose a high quality asphalt roof and beautiful lacquered spruce walls for the ultimate look and resistance to nature's harshest elements.

**CUSTOMIZED SAUNA ROOMS:** With our experience in the design and build of sauna rooms, we can provide a customized solution that meets your specific needs. Shape and size are limitless as long as proper ventilation and a good drainage system are installed, and the correct regulations and standards are adhered to.
