

TILES 12/25

3D GLASS MOSAIC FINISH

Dedicated range of finishing pieces designed to perfectly complement their glass mosaic tile collections. The trims are engineered for smooth edges, clean terminations, and professional detailing in pools and wet areas. Although many finishing pieces come in matte texture, they are formulated to blend visually with both matte and glossy mosaics, especially under water. These accessories ensure durability, aesthetic consistency, and a seamless transition between surfaces.

Note: There may be a slight deviation in colour between batches. We always recommend to order the entire swimming pool tiles in one go and to ensure the batch number is the same of all tiles before starting installation.

ONIX

- Made in Spain
- 98% Recycled Glass
- Eco Friendly
- Green & Sustainable Products

All ONIX 98% recycled glass mosaics series are made of molten glass. Molten glass characteristics may include irregular edges and small variations in size. These characteristics are inherent to the product and to the standard production. The small size and shape variations can affect the grout joint appearance and enhance the natural aspect of these products.

Your global partner since 1974. Trusted for superior quality and exceptional innovations.
